Processes for the 2026/27 Club Licensing and Club Monitoring – Key deadlines

Dear Licensing Managers,

In order to assist the licensors and its affiliated clubs throughout this new season, please find enclosed the key club licensing and club monitoring deadlines that will need to be complied with for the 2026/27 season.

As in previous seasons, the club licensing and club monitoring information shall be submitted to UEFA via the CL/FS IT Solution unless otherwise specified or requested during the processes.

According to the *UEFA Club Licensing and Financial Sustainability Regulations – Edition 2026* ('CL&FS') and *UEFA Club Licensing Regulations for UEFA Women's Club Competitions Regulations – Edition 2026* ('CLWCC'), it is the licensors' responsibility to communicate these deadlines to all their affiliated clubs and to assess club's documentation. Each licensor is therefore required to define an appropriate core process and set internal deadlines to its affiliated clubs to allow sufficient time for the licensors to perform the required assessment procedures before submitting the validated information to UEFA.

In particular, we would like to draw your attention to the following deadlines and requirements related to both the **club licensing** and **club monitoring** processes:

1. Club Licensing

As per CL&FS and CLWCC, licensors (and if applicable clubs) are required to submit the following information during the 2026/27 season:

- **National Club licensing regulations:** the submission of the final and internally approved national club licensing regulations for participation in UEFA club competitions and the possible exceptions in relation to the club licensing provisions.
- **Three-year rule (men) / Two-year rule (women) process:** the submission of the structural changes performed by the clubs and eventual related exceptions to the three/two-year rule.
- **Club licensing decisions:** the submission of each licensing decision for the participation in the 2027/28 UEFA club competitions and the notification of potential requests of an extraordinary application of the club licensing system.
- **Clubs' legal and financial information:** the submission of the financial, legal and ownership information of the clubs.

2. **Club monitoring**

As per CL&FS, clubs admitted to the 2026/27 UEFA competitions are required to submit the following information:

- **Club information requirements:** including the legal group structure, the ultimate controlling party, the ultimate beneficiary, the members responsible for the governance and any party with a significant or decisive influence over the club. Any changes occurring during the 2026/27 season must be promptly communicated to UEFA, using the e-mail addresses below.
- **Solvency requirements:** the "no overdue payables" rule requiring the submission of payable information as at 15 July 2026, 15 October 2026 and, if applicable, 15 January 2027.
- **Stability requirements:** the "football earnings" rule requiring the submission of financial data for the reporting periods ending in 2024, 2025 and 2026.
- **Cost control requirements:** the "squad cost" rule requiring the submission of financial data for the relevant periods, in particular the 12-month period from 1 January up until 31 December 2026. Clubs with an annual accounting reference date on or before 31 July must also submit interim financial statements.

The deadlines applicable for the 2026/27 season are enclosed (Enclosures 1, plus 2A or 2B depending on the club's accounting reference date) and are also available on UEFA.com.

Please note that the UEFA deadlines cited above and the enclosures must be complied with by all clubs and licensors, and are independent of any other deadlines set by the licensor as part of the club licensing process.

Please contact us at clublicensing@uefa.ch (licensing) or at fs.support@uefa.ch (monitoring) if you have any questions or require further information.

We sincerely thank you for your cooperation.

Yours faithfully,

U E F A
